

**TECHNICAL PARAMETRE OF 66-500KV
XLPE INSULATION POWER CABLES**

STANDARDS

66	IEC60840	
110	IEC60840	GB/T11017-2002
132	IEC60840	
220	IEC62067	GB/Z18890-2002

TYPES AND DESCRIPTION

YJLW02 (YJLLW02) Cu (Al) conductor, XLPE insulation, welded
Corrugated aluminum sheath, PVC outer sheath power cable

YJLW02 (YJLLW03) Cu (Al) conductor, XLPE insulation, welded
Corrugated aluminum sheath, PE outer sheath power cable

YJLW02- Z (YJLLW02-Z)Cu (Al) conductor, XLPE insulation, welded
Corrugated aluminum sheath, PVC outer sheath and longitudinal water proof power cable

YJLW03- Z (YJLLW03-Z)Cu (Al) conductor, XLPE insulation, welded
Corrugated aluminum sheath, PE outer sheath and longitudinal water proof power cable

NOTE: According to the requirements of customers and installation condition, we can also provide corrugated copper sheath, corrugated steel metal sheath; low smoke without halogen and anti-termite compound outer sheath also can be made, as well as moisture-proof plastic compound sheath wire shielded cable.
